The EU ERASMUS+ NARRATE Project Consortium invites you to participate in a transformative 3-day workshop in Istanbul, focused on the documentation and digitalization of cultural heritage. This event will bring together experts, offer hands-on learning opportunities, and facilitate collaborative discussions designed to deepen understanding, encourage knowledge-sharing, and foster international connections within the cultural heritage field.

Participants will explore the essential role of digital technologies in documenting and preserving cultural heritage. The program will highlight innovative practices, emphasize stakeholder engagement, and offer insights into how digitalization can enhance preservation efforts.

This workshop welcomes stakeholders from all backgrounds, including clergy, museum professionals, academics, students, educators, experts and enthusiasts in ecclesiastical cultural heritage, archaeology, art history, architecture, the restoration and conservation of cultural heritage and digital media and technology. With a focus on documentation and digitalization, it aims to enrich the knowledge and skills of everyone engaged in the protection, preservation and study of historical objects and ecclesiastical treasures.

Workshop Schedule Highlights:

📅 **DAY ONE: Monday, December 9, 2024**

Opening Session (9:30-12:00):

Open to all; no pre-registration necessary.
Simultaneous translation will be provided in English and Turkish.

We invite you to join distinguished cultural heritage experts as they discuss the significance and urgency of protecting cultural heritage through comprehensive documentation and digitalization. This opening session will also spotlight key projects and best practices,

emphasizing digitalization's essential role in preserving cultural heritage and exploring the strategies that ensure its safeguarding for future generations.

Afternoon Sessions:

Open to all experience levels, a personal computer is required.
